## TECHNICAL DRAWING

### THE ULTIMATE MINIMALIST SYSTEM

This minimalist system is suited for jobs that require extreme performances. It was developed to use double or triple glass up to 48mm thickness, up to 6m height or a glass surface of up to 18m<sup>2</sup>. This robust window offers the best acoustic and thermal performance.

Developed with sophistication and attention to design in mind, this system is characterized by the smallest central mullion in the market and an integrated floor option that fully hides the frame, resulting in a obstacle-free threshold.

This system allows the inclusion of blackouts, blinds, screen in the interior glass and fly screens.

1. Main Frame
2. Central Mullion
3. Glass
4. Drainage System
5. Inox Gutter
6. Interior finish

#### Opening Options

Mono / Bi / Tri / Quad+ Rails  
Corner Module  
Pocket Module

#### Maximum Weight

1000kg/ML

#### Locking and Security System

You can integrate a key lock for better security and control. The cylinder lock is hidden on the wall for an invisible frame effect. You can integrate an electromagnetic lock for better security and control.

#### Multi-point Lock

HYLINE features a multipoint locking system. The mechanism is completely hidden in the frame and each locking point is adjustable.

#### Finishing Options

HYLINE Colour Essentials (Ral Coiores STD)  
HYLINE Natural Metals (Qualanod EURAS Class 2 STD)  
HYLINE Advanced Coating (Hiper Durable Finishings)  
HYLINE Luxury Collection under Qualicoat Seaside Standards

#### INVISIBLE FRAME PERIMETRAL

At HYLINE, only the window is seen. Landscape framing is reduced to ultra thin lines of 8mm aluminium view for the chassis.

#### INTEGRATED FLOOR

The HYLINE system allows to ensure visual continuity and material between the inside and outside.

#### HYHANDLE

Handle with exclusive design.
